EXAMINATION

GEOGRAPHY

Paper 032 – General Proficiency

1 hour 45 minutes

READ THE FOLLOWING INSTRUCTIONS CAREFULLY.

1. This paper consists of SIX questions.
2. Answer ALL questions.
3. Write your answers in the spaces provided in this booklet.
4. Do NOT write in the margins.
5. You may use a silent, non-programmable calculator to answer questions.
6. You may use geometrical instruments.
7. If you need to rewrite any answer and there is not enough space to do so on the original page, you must use the extra lined page(s) provided at the back of this booklet.
Remember to draw a line through your original answer.
8. If you use the extra page(s) you **MUST** write the question number clearly in the box provided at the top of the extra page(s) and, where relevant, include the question part beside the answer.

DO NOT TURN THIS PAGE UNTIL YOU ARE TOLD TO DO SO.

0122503203

Answer ALL questions.

You are advised to spend no more than 10 minutes on Question 1.

1. A map of Kingston, Jamaica (scale 1:50 000), is provided as an insert for this question.

Imagine you are preparing to study the size of the area served by a supermarket in a mall in Half Way Tree, Jamaica.

With reference to the map, complete the following two sketch maps as indicated.

- (a) Figure 1 shows an outline of Jamaica and the sheet boundaries. On this outline show the position of Kingston.

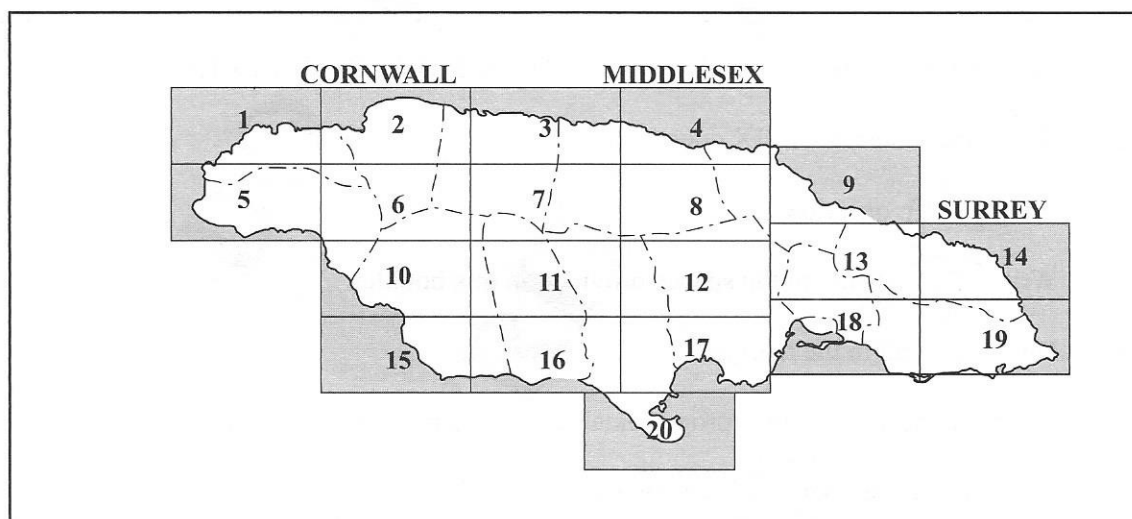

Figure 1. Position of Kingston, Jamaica

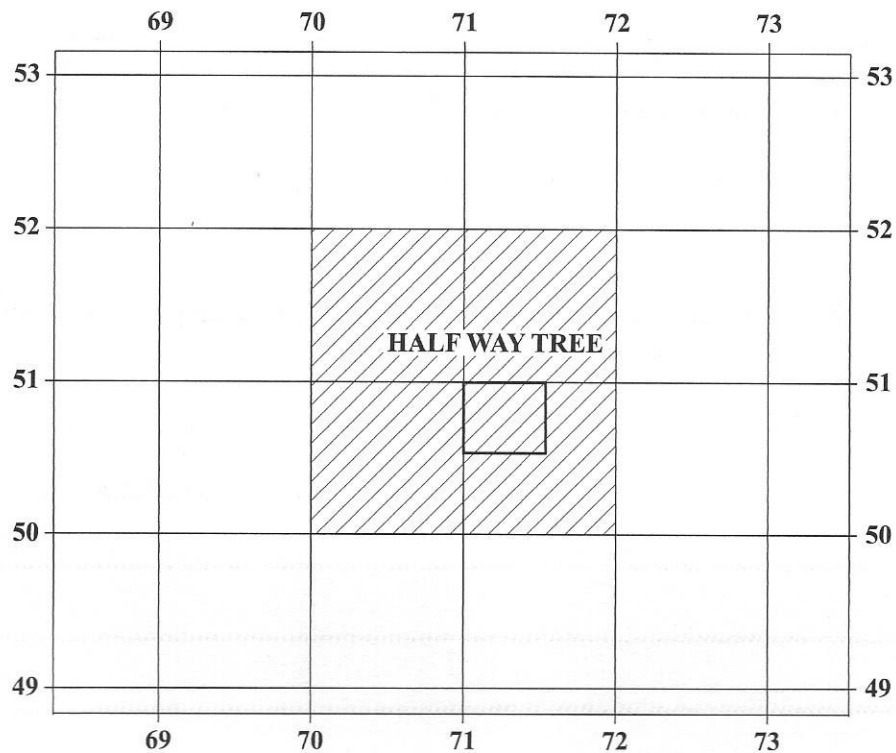

(1 mark)

- (b) Figure 2 shows a sketch map of part of Kingston between Eastings 69 and 73, and Northings 49 and 53, at the same scale as the map. Half Way Tree's 'local area' is shaded and Half Way Tree itself is depicted by the square shown within the shaded area.

Complete the sketch map in Figure 2 by adding the following types of roads:

- Class A
- Class B
- Class C

Scale: 1:50 000

Figure 2. Location of the local area and roads to Half Way Tree

(3 marks)

2. One of the attractions of urban areas is better shopping facilities. It has been suggested that a supermarket in a mall in Half Way Tree serves an area larger than the local area and that most of its regular customers are not from the local area. The local area is defined as the area within 1 km of the mall. This is the area shown on the map in Figure 2 on page 5.

You are to create a definition of 'regular customer', conduct research to find out if this suggestion is correct and identify the area served.

Form a question or state a hypothesis to guide the collection of data in the field. This will be the 'purpose' or 'aim' of your research.

.....

.....

.....

(2 marks)

3. (a) For the research in Question 2, list SIX items about which you would collect information in the field on a questionnaire.

.....

.....

.....

.....

.....

.....

(6 marks)

GO ON TO THE NEXT PAGE

- (b) Describe how and when you would conduct the research and record the data.

How

.....

.....

(2 marks)

- (c) (i) Identify ONE problem (excluding the weather, illness and injury) that you may encounter in conducting the research in (b) above.

.....

.....

.....

(1 mark)

- (ii) State how you would overcome the problem that you identified in (c) (i) above.

.....

.....

.....

.....

(2 marks)

GO ON TO THE NEXT PAGE

4. Imagine you have collected data from customers who live in the area and summarized the data in Table 1.

TABLE 1: DISTANCE THAT 200 REGULAR CUSTOMERS LIVE AWAY FROM SUPERMARKET

Distance	North	East	South	West
Local	10	10	10	10
1 km away	25	10	5	30
2 km away	10	15	5	25
3 km away	0	10	0	15
4+ km away	0	0	0	10
Total (200)	45	45	20	90

- (a) Using the data from Table 1 and the following grid, draw a bar graph to illustrate the data for customers from the North.

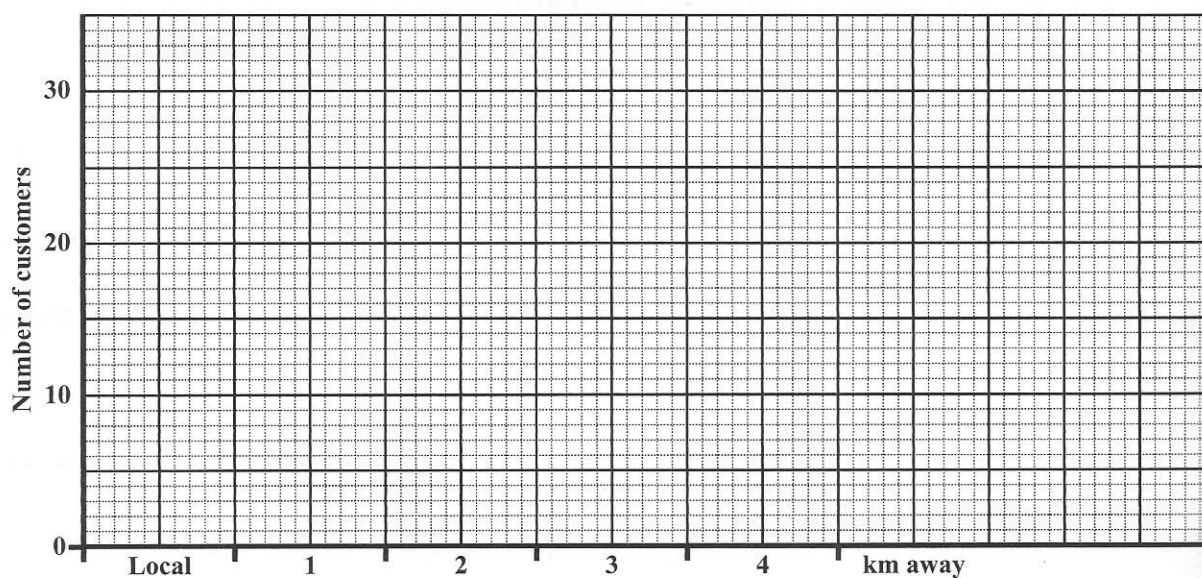

Figure 3. Bar graph of customers living north of the supermarket

(3 marks)

- (b) Study the map of Kingston, Jamaica, provided for Question 1 and the data in Table 1, and outline THREE conditions which could have an impact on the area served by the supermarket in Half Way Tree.

5. Study Table 2 which presents data on land use on the edge of Town W.

TABLE 2: PERCENTAGE LAND USE ON EDGE OF TOWN W

Land Use	1980 (%)	2010 (%)
Residential	55	40
Office building	3	10
Recreational space	10	15
OTHER – Details		
Stores and shops	5	10
Night clubs, bars	1	10
Farms	25	10
Shopping malls	1	5

- (a) Represent the data for residential, office building, recreational space and other land use in 2010 on a pie chart.

Title: _____

(3 marks)

GO ON TO THE NEXT PAGE

- (b) State another method/technique that can be used to represent the data in Table 2.

.....
(1 mark)

- (c) Suggest THREE reasons for changes in land use evident from the data in Table 2.

.....
.....
.....
.....
.....
(6 marks)

6. The five elements of a book which are given in a bibliography are:

- Name(s) of the author(s)
- Name of publisher
- Title of the book
- Year of publication
- City of publication

List the FIVE elements in the sequence in which they should be given in the bibliography. Include the appropriate punctuation after EACH element.

.....
.....
.....
(1 mark)

Total 40 marks

END OF TEST

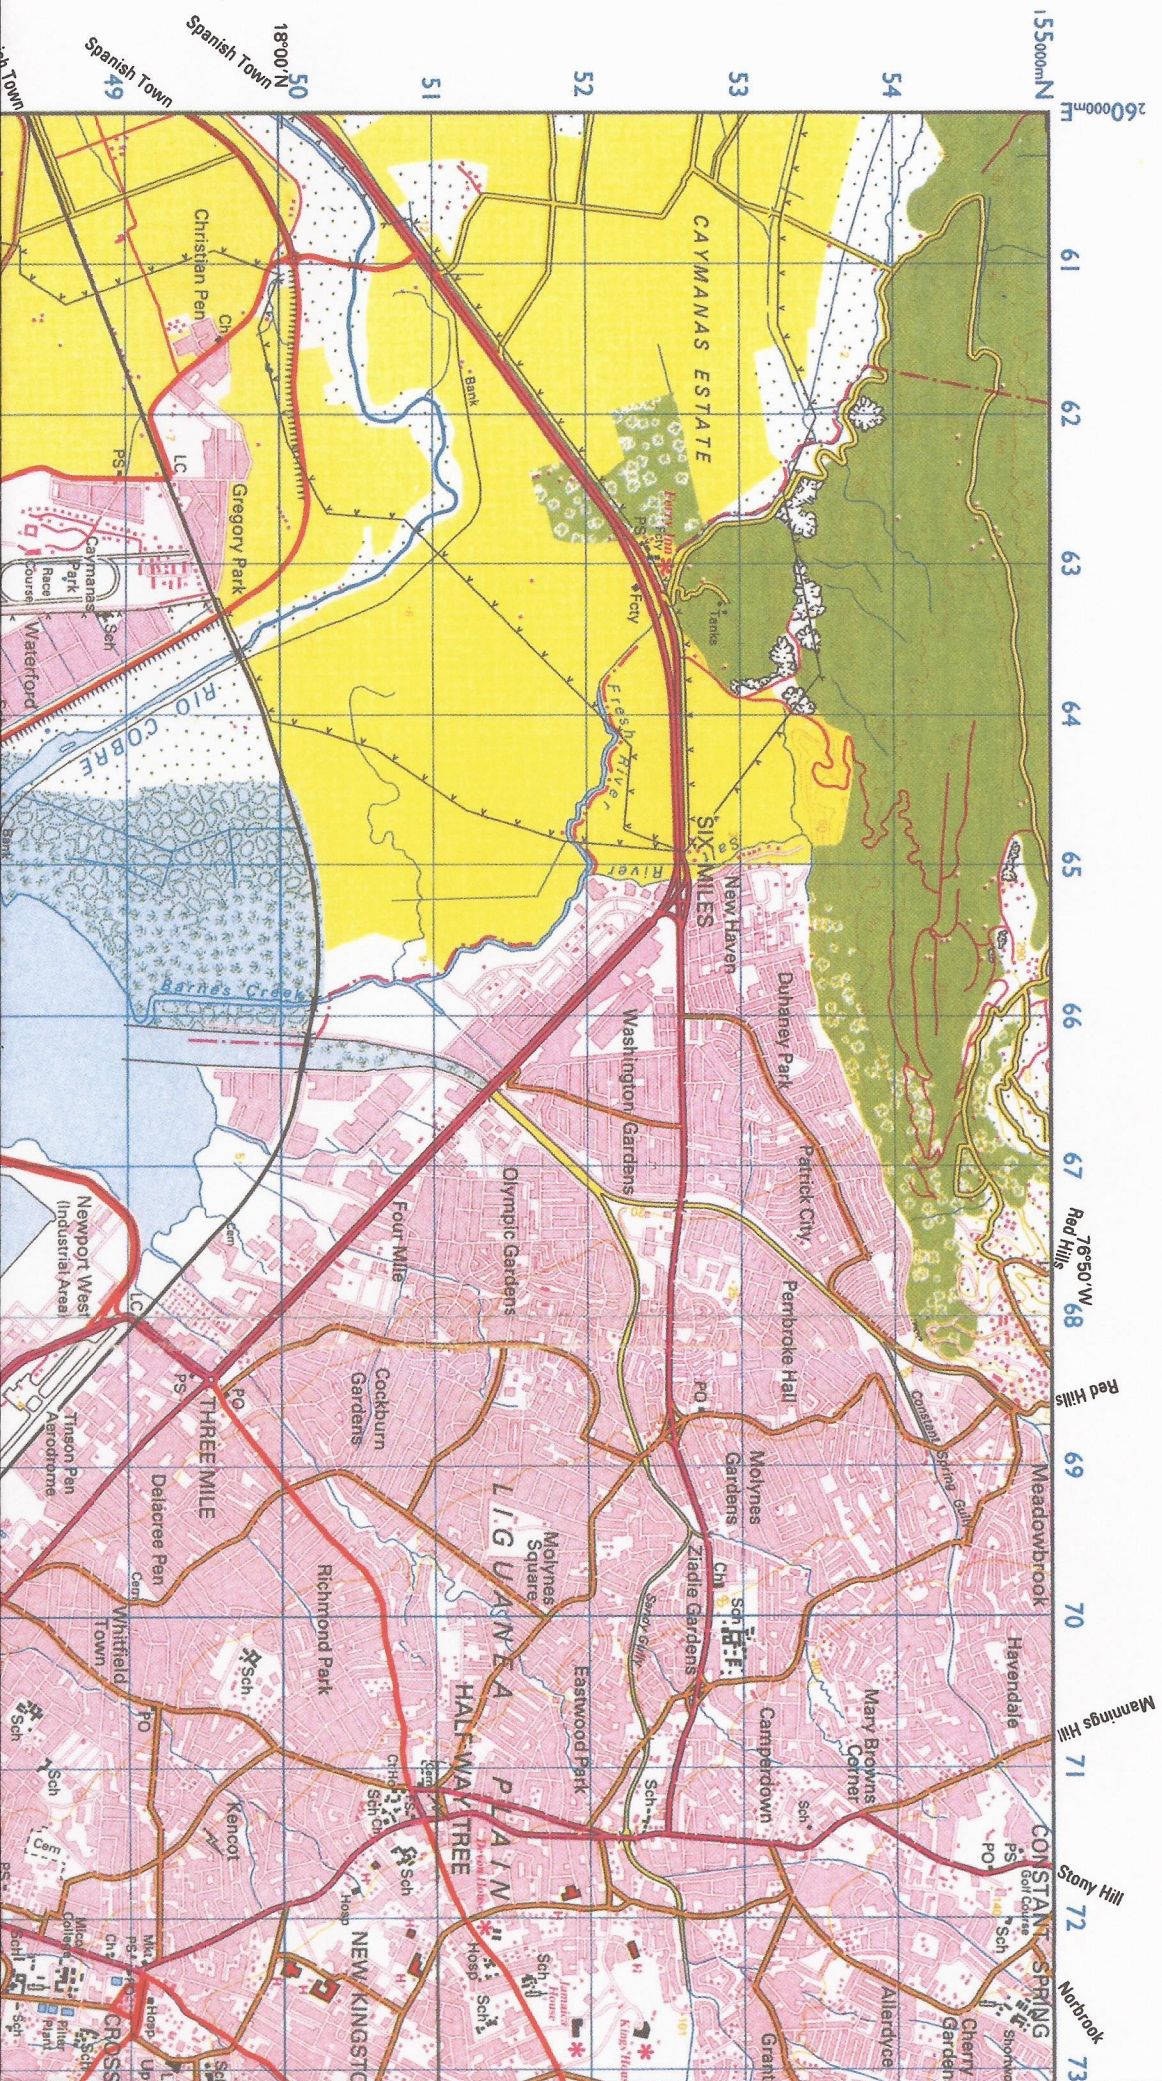

IF YOU FINISH BEFORE TIME IS CALLED, CHECK YOUR WORK ON THIS TEST.
