MODERATION OF SCHOOL-BASED ASSESSMENT

School-Based Assessment Record Sheets are available on CXC's website (www.cxc.org).

All School-Based Assessment Record of marks must be submitted online using the SBA data capture module of the Online Registration System (ORS). A sample of assignments will be requested by CXC for moderation purposes. These assignments will be reassessed by CXC Examiners who moderate the SBA. Teachers' marks may be adjusted as a result of moderation. The Examiners' comments will be sent to schools. All samples must be delivered to the specified marking venues by the stipulated deadlines.

Copies of the students' assignments that are not submitted must be retained by the school until three months after publication by CXC of the examination results.

GUIDELINES FOR THE CONDUCT OF THE PAPER 032, ALTERNATIVE TO SBA

The Paper 032, Alternative to the SBA, assesses the same skills as the SBA itself. The questions are set to assess the skills that the candidates should demonstrate when carrying out a field study.

Candidates are expected to:

1. *formulate a research question or hypothesis;*
2. *design a strategy to collect relevant data by field research;*
3. *say how the field study will be conducted;*
4. *present data in tables or charts;*
5. *evaluate data collected with respect to a question or hypothesis;*
6. *make logical deductions or inferences supported by data;*
7. *draw conclusion with respect to the findings as indicated by question or hypothesis; and,*
8. *present a bibliography.*

Candidates may also be required to respond to scenes, situations or problems that are likely to occur in the conduct of a field study.
