.....

.....

.....

(3 marks)

- (b) Describe the method you used to analyse your data.

.....

.....

.....

.....

.....

.....

(2 marks)

- (c) Give TWO reasons why you chose the method you have described in 3 (b) to analyse your data.

.....

.....

.....

.....

(2 marks)

Total 7 marks

Questions **4** and **5** are based on the following case study.

A Case Study

The teachers of Community High School researched the study habits of fifth form students in their school for a period of one month. These students were preparing for the CSEC examinations. The study habits of 50 boys and 50 girls were investigated. Questionnaires were given to each of the students in the sample. Every student returned his or her questionnaire.

One of the questions on the questionnaire focused on the time of the day students did homework assignments. 15 boys and 10 girls said as soon as they got home; 5 boys and 20 girls said after eating dinner; 10 boys and 15 girls said after taking a nap and 20 boys and 5 girls said early in the morning.

The teachers summarized the information from the responses using tables and graphs for analysis.

- 4.** (a) State the MAIN focus of the research conducted by the teachers.

.....
.....
(2 marks)

- (b) What was the size of the sample studied by the teachers?

.....
(1 mark)

- (c) State TWO features of the sample in the case study.

.....
.....
(2 marks)

Total 5 marks

5. (a) In the space provided, display the data collected by the teachers in a table.

(5 marks)

- (b) Write TWO questions which the questionnaire might include relating to the study habits of the students.

.....

.....

.....

.....

(4 marks)

- (c) Write ONE conclusion that can be made about the study habits of the fifth formers based on the data you displayed in the table.

.....

.....

(2 marks)

Total 11 marks
