Questions 4 and 5 are based on the following case study. Answer BOTH questions.

Increase in Young Migrants to Caram

A group of researchers conducted a survey on the reasons for the increase in young migrants to Caram, a beautiful seaside community. Caram has a small population and borders the agricultural community of Perth. Four hundred migrants between the ages of 18 and 25 formed the sample for the study. The sample was equally composed of males and females. The research revealed that 120 females and 100 males had been contracted to work in the tourist industry; 60 women and 40 men were attracted to the quality of the social services in the area; 20 women and 60 men were attracted to the exciting night life. Approximately 80 per cent of the persons who were interviewed came from Perth. The findings were documented and presented to the Ministry of Labour and Social Development.

4. (a) State the main focus of the study conducted by the researchers.

(2 marks)

- (b) Write TWO statements of fact about Caram.

(2 marks)

- (c) Identify TWO instruments that may have helped the researchers to collect the statistical data in this study.

(2 marks)

- (d) Write ONE research question for the problem that was investigated.

(2 marks)

- (e) State TWO important findings of the study.
