Paper 032 – General Proficiency

*1 hour 10 minutes***READ THE FOLLOWING INSTRUCTIONS CAREFULLY.**

1. This paper consists of FIVE questions. You **MUST** answer **ALL** the questions.
2. Write your answers in the spaces provided in this booklet.
3. Do **NOT** write in the margins.
4. You are advised to take some time to read through the paper and plan your answers.
5. If you need to rewrite any answer and there is not enough space to do so on the original page, you must use the extra lined page(s) provided at the back of this booklet.
Remember to draw a line through your original answer.
6. If you use the extra page(s) you **MUST** write the question number clearly in the box provided at the top of the extra page(s) and, where relevant, include the question part beside the answer.

DO NOT TURN THIS PAGE UNTIL YOU ARE TOLD TO DO SO.

Before you write your answers, choose ONE of the following research topics and write it in the space provided. You will be required to answer Questions 1, 2 and 3 related to the topic you have chosen.

Topics:

- (i) The views of citizens in my community on the importance of using local products
- (ii) The perception of community members on the importance of preserving the green areas

Topic Chosen:

.....

1. (a) State ONE reason why you would want to investigate the topic you have chosen.

.....

.....

(2 marks)

- (b) Write a problem statement based on the topic you have chosen by completing the following statement.

The study will

.....

.....

(2 marks)

- (c) Identify ONE term in the topic that may be defined in the research.

.....

(1 mark)

- (d) Give ONE reason why a face-to-face interview would be an appropriate method to gather information for this research.

.....

.....

(1 mark)

GO ON TO THE NEXT PAGE

- (e) Identify TWO problems a researcher is likely to experience in gathering data from questionnaires administered for this research study.

.....

.....

.....

.....

(2 marks)

Total 8 marks

2. (a) Identify ONE source you may use to obtain background information on the topic you have chosen.

.....

.....

(1 mark)

- (b) Write ONE research question for the topic you have chosen.

.....

.....

(2 marks)

- (c) Write TWO items for a questionnaire that could be used to obtain information on the topic chosen.

.....

.....

.....

.....

(2 marks)

Total 5 marks

DO NOT WRITE IN THIS AREA

3. In research, it is important to choose a representative sample.

- (a) Identify an appropriate method for selecting the sample for the research topic you have chosen.

.....
(1 mark)

- (b) Describe how you would select the sample using the method selected in (a) above.

.....
.....
(1 mark)

- (c) Give ONE reason why the method of sampling you have chosen in (a) above is appropriate.

.....
.....
(1 mark)

- (d) State TWO ways the researcher may protect the information provided by a sample.

Way 1

.....
Way 2

.....
(2 marks)

Total 5 marks

Questions 4 and 5 are based on the following survey. Answer BOTH questions.

On Pigeon Island where the student population of 5 000 ranges between the ages of 4 and 18, there was concern about the outbreak of measles among children. Seven years ago, the government had announced that children must be fully immunized to be enrolled in school. The Ministry of Health conducted a survey among 500 students, all of whom had contracted measles, to ascertain the age group that was most affected.

The research found that 85 per cent of those who contracted the disease were in the 10–14 age group; 10 per cent were 15 years and over and 5 per cent were between 0 and 4 years. No child in the age group 5–9 contracted the disease. The study also found that children who were immunized against measles, mumps and rubella (MMR) before they were one year old, free of cost at government antenatal clinics never had booster shots¹.

¹ Additional dose of a vaccine given to help the immune system.

4. (a) State the MAIN focus of the study conducted by the researchers.

.....

.....

(1 mark)

- (b) Write TWO facts about Pigeon Island.

.....

.....

.....

(2 marks)

- (c) What percentage of the population formed the sample?

.....

(2 marks)

- (d) Identify the MAIN instrument the researcher may have used to gather the data for the study.

.....

(1 mark)

- (e) Write ONE research question for the problem investigated.

.....

.....

(1 mark)

Total 7 marks

5. (a) (i) The table below gives the data which were derived from the study.

Age Group	Number of Students	Percentage of Students
0–4		5
5–9	0	0
10–14		85
15+	50	10
Total	500	100

Complete the table by calculating and inserting, in the space provided, the number of students in the 0–4 age group and the 10–14 age group who were part of the sample.
(2 marks)

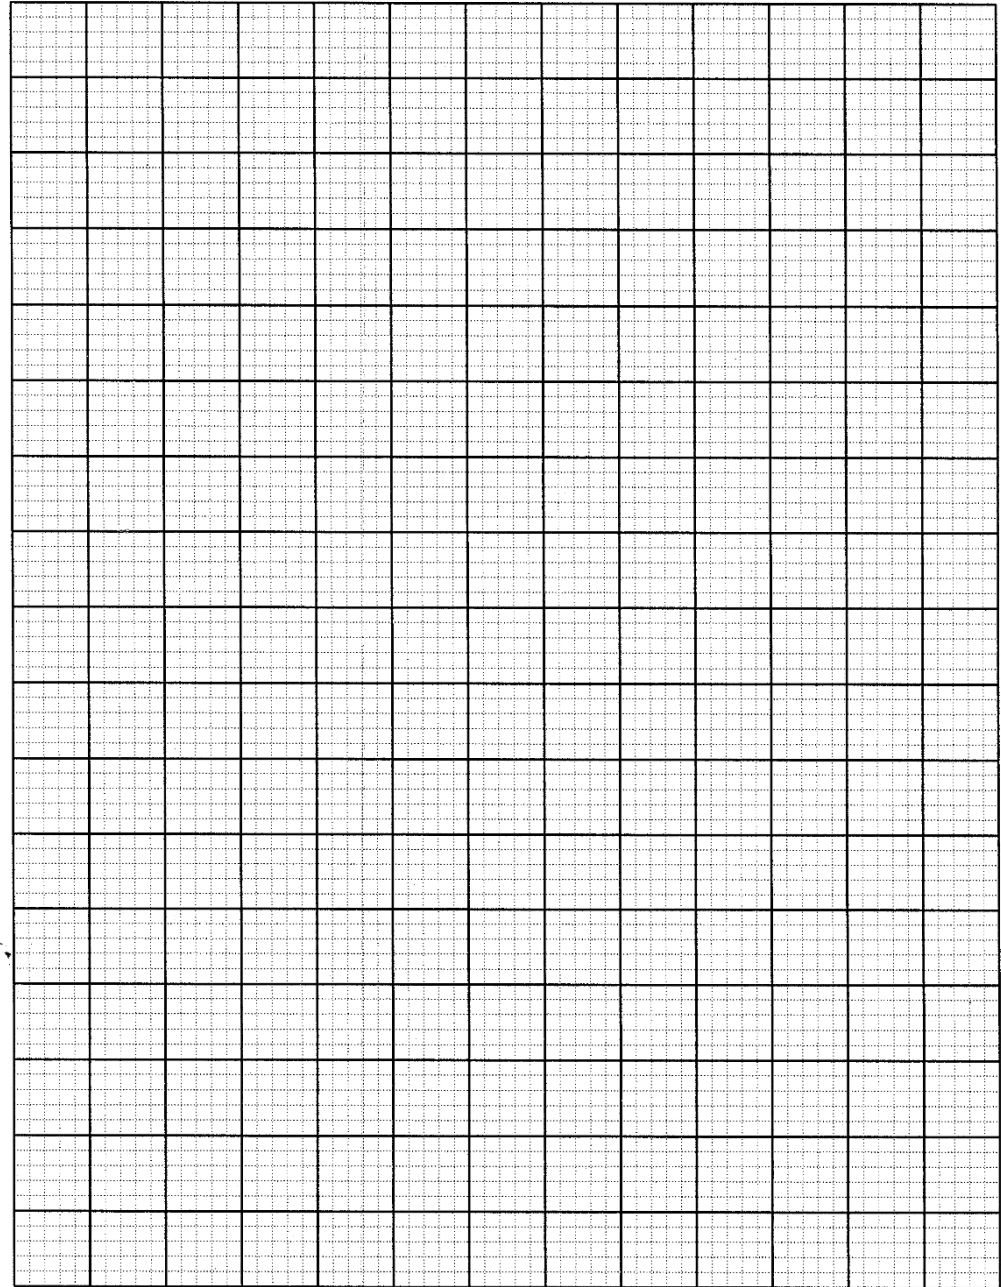

- (ii) Use the grid provided on page 9 to draw a bar graph to present the data collected in the research.

You should:

- Provide a title for the graph.
- Label both axes correctly.
- Draw the bars accurately.
- Label each bar correctly.

Graph Title:

Axis Label:

Axis Label.....
(7 marks)

- (b) State TWO concluding statements which may be made from the data.

.....

.....

.....

.....

(4 marks)

- (c) Give ONE recommendation that could assist the Ministry of Health in alleviating the problem.

.....

.....

(2 marks)

Total 15 marks

END OF TEST

IF YOU FINISH BEFORE TIME IS CALLED, CHECK YOUR WORK ON THIS TEST.
