Paper 03/2 – General Proficiency

1 hour

In addition to the 1 hour, candidates are allowed 10 minutes to read through the paper. Writing MAY begin during this time.

GENERAL INSTRUCTIONS

1. You **MUST** answer **ALL** the questions on this paper.
2. Use this answer booklet to respond to the questions. For **EACH** question, write your answer in the space provided.
3. If you need additional paper to write your answers, request it from the supervisor.
4. Attach any additional paper that you use securely to this answer booklet.
5. Return this answer booklet at the end of the examination.

DO NOT TURN THIS PAGE UNTIL YOU ARE TOLD TO DO SO.

Before you start to write your answers, choose ONE of the following topics and write it in the space provided.

- (i) The Growing Number of Street Children in my Community
- (ii) The Impact of Video Games on Students' Academic Performance

Topic: _____

1. (a) Write the topic you have chosen in the form of a research question.

(2 marks)

- (b) Write ONE reason why you would want to investigate the topic you have chosen.

(2 marks)

- (c) Identify ONE source that may provide background information on the topic you have chosen.

(1 mark)

Total 5 marks

2. (a) Identify the population from which a sample may be selected to study the topic you have chosen.

(1 mark)

- (b) Describe how you would choose the sample for the study you have chosen.

(2 marks)

GO ON TO THE NEXT PAGE

- (c) Describe with an example, ONE way a researcher may introduce bias into the research.

(1 mark)

- (d) Identify TWO problems researchers may experience in collecting data from a sample.

(2 marks)

Total 6 marks

3. (a) Identify TWO instruments, other than questionnaires, that may be used to collect information on the topic you have chosen.

(2 marks)

- (b) Write TWO questions for a questionnaire that a researcher may use to collect data on the topic you have chosen. Write these questions so that the answer to these questions should be either yes or no.

(2 marks)

- (c) Identify TWO ways to display the data or information a sample may provide.

(2 marks)

- (d) State TWO ways in which a researcher may protect the information provided by members of a sample.

(2 marks)

Total 8 marks

Questions 4 and 5 are based on the following case study.

CASE STUDY

Mining Operations and the Health of Citizens

Carr is a small rural community with a population of 600 households. Since bauxite mining operations began in the community three years ago, the residents have reported a significant increase in illnesses such as asthma, bronchitis and allergies.

Research was conducted using 300 residents in the community. The data revealed that 50 per cent of the residents had asthma, 25 per cent bronchitis, 20 per cent allergies and 5 per cent reported none of these. The researchers observed and recorded the presence of thick layers of dust on the furniture and clothes in the homes of residents, as well as on the plants and animals in the community. They discussed the findings with the public health inspector who confirmed that the bauxite and alumina dust affect the respiratory system of humans.

The researchers concluded from the data that the mining operations of the company had contributed to the illness of the citizens and recommended to the Government Environmental Department that the situation needed immediate attention.

4. (a) State the problem the researcher investigated in the form of a research question.

(2 marks)

- (b) Identify TWO instruments that may have helped the researchers to collect the statistical data in the case study.

(2 marks)

- (c) Write TWO questions the researcher may have asked the members of the sample to obtain the information for the study. The answers to the questions should be either 'yes' or 'no'.

(2 marks)

Total 6 marks

5. (a) Complete the display of data provided by the sample in the table below.

Illness	Percentage of Residents	Number of Residents

N = 300

(4 marks)

- (b) State TWO findings of the investigation.

(2 marks)

- (c) State ONE conclusion the researchers made from their findings.

(2 marks)

- (d) Suggest to the Government Environmental Department ONE way to alleviate the problem.

(2 marks)

Total 10 marks
